DETAILED ACTION

Election/Restrictions

1. Claims 5-8 and 11 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected groups II-IV, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in the reply filed on 8/20/04. Examiner acknowledges claims 9 and 10 have been cancelled. Also, examiner cancels the remaining claims 5-8 and 11.

Allowable Subject Matter

2. Claims 1-4 are allowed over the prior art of record.

Reasons for Allowance

3. The following is an examiner's statement of reasons for allowance: The primary reason for allowance of the claims is that the prior art neither teaches nor fairly suggest a method of inverting at a work location an article having first and second opposed surfaces both of which are generally normal to the article's periphery, which comprises: closing one end of an article-periphery-conformal aperture formed through a member to render the aperture a blind aperture; inserting the article into the blind aperture so that the first article surface is supported at the blind end of the aperture and its second surface is exposed at the work station; closing the other end of the aperture to render the aperture a closed aperture; and thereafter, inverting the carrier so that should the one aperture end be opened, the first article surface is exposed at the work station in claims 1-4 and in the context of the recited process.
